

Please do not weaken New Jersey "Do Not Call" policy. It is such a relief to not be hassled (harassed) by telemarketers pushing something I am not interested in. Prior to the "Do Not Call" policy, we received countless numbers of calls on a weekly basis, especially during dinner time. It was very disruptive and upsetting.

If I need to purchase anything, I will do it on my own time and in my own way. I do not need telemarketers pressuring me to purchase something I am not in the market for. My vote would be to outlaw telemarketing altogether... absolutely no calling anyone who has not expressed an interest in your product or receiving your call.

Please, please, please, do not allow the telemarketers to dismantle this policy.
